

Pictet - Sovereign Short-Term Money Market USD - I dy

INVESTMENT OVERVIEW

Objective

To preserve the value of your investment, while achieving a return in line with money market rates.

Reference Index

US Generic Govt 1M, an index that does not take into account environmental, social and governance (ESG) factors. Used for performance measurement.

Portfolio Assets

The Fund mainly invests in deposits and in short-term, highly rated investment-grade money market instruments that are either denominated in US dollar (USD) or systematically hedged to this currency (meaning investments have little or no exposure to currency risk). These are issued by governments or public organisations in developed countries.

Investment Process

In actively managing the Fund, the Investment Manager uses a combination of market and issuer analysis to identify

those securities that offer the best performance in light of interest rate trends. The Fund's management approach uses strict risk controls. The Investment Manager considers ESG factors a core element of its strategy by adopting a best in class approach which seeks to invest in securities of issuers with low sustainability risks while avoiding those with high sustainability risks, subject to good governance practices. Activities that adversely affect society or the environment are also avoided. There may be engagement with companies to positively influence ESG practices. For further information, please refer to our exclusion framework in the Responsible Investment policy*, SFDR product category Article 8. The portfolio composition is not constrained relative to the benchmark, so the similarity of the Fund's performance to that of the benchmark may vary.

Value of 100 USD invested since 07.05.2024 (Net of fees*)

Current index: US Generic Govt 1 Month (USD) valid from 03.05.2024

Source: Pictet Asset Management

*Including actual ongoing charges and excluding subscription/redemption fees and taxes borne by the investor.

PERFORMANCE DISCLOSURES

The published performance represents past data. Past performance may not be a reliable guide to future performance. There is no guarantee that the same yields will be obtained in the future. The value and income of any of your

investments may fluctuate with market conditions and may lose some or all its value. The fund may be affected by changes in currency exchange rates, which can have an adverse effect on the value or income of the fund.

Past performance may not be a reliable guide to future performance. All forms of investment involve risk. The value of investments and the income derived from them is not guaranteed and it can fall as well as rise and you may not get back the original amount invested. Please refer to the Risk Considerations and to the prospectus for more information.

RISK CONSIDERATIONS

The Share Class is assigned to this risk category because of the price variations resulting from its currency and the nature of the Compartment's investments and strategy. The risk category shown is based on historical data and may not be a reliable indication

for the future risk profile of the Share Class. It is not a target or a guarantee and may change over time. The lowest category does not mean a risk-free investment. The Compartment offers no capital guarantee or asset protection measures.

The Compartment may be exposed to the following risks which are not adequately captured by the synthetic risk indicator and may negatively impact its value: **Further information can be found in the prospectus.**

FINANCIAL GLOSSARY

Annualised volatility

Annualised volatility is a risk indicator showing the extent of the price fluctuations of a security or fund unit compared to its average price over a given period. The higher the volatility, the greater the fluctuations.

The launch date is the date when the sub-fund was activated in its current legal status.

costs are estimated.

Order deadline

Deadline for remittance of orders to the transfer agent in Luxembourg as set out in the relevant annexes to the prospectus. You may be required to submit your orders to your financial advisor or fund distributor by an earlier cut-off time.

Conversion fee

Fee paid for the transfer of shares of one unit/share class to another unit/share class.

NAV

An acronym of net asset value.

Ongoing Costs

The ongoing costs figure is based on expenses for the last 12 months. This figure may vary from year to year. It includes the management fees and other administrative or operating costs. It excludes performance fees and portfolio transaction costs, except in the case of an entry/exit charge paid by the Compartment when buying or selling units/shares in another collective investment undertaking. For funds created less than 12 months ago, future

SRRI

The Synthetic Risk and Reward Indicator is a volatility gauge as defined by the European Securities and Markets Authority (ESMA) in its guidelines CESR/10-673.

Inception date

The inception date is the date taken into account for the start of performance calculation.

Sustainalytics cannot be held liable for damage arising from the use of this publication or information contained herein in any manner whatsoever. Please, refer to the additional information in the ESG Glossary.

ESG GLOSSARY

GHG Intensity of investee countries (KtCO₂e/GDP mln)

This indicator measures the amount of carbon produced per unit of Gross Domestic Product (GDP), measured in Kton per m of gross domestic product (GDP). GHG emissions include both territorial and traded emissions from energy use, land use, land use changes and forestry.

Investee countries subject to social violations (number)

Number of investee countries subject to social violations as referred to in international treaties and conventions, United Nations principles and, where applicable, national law. Information is based on by third-party data and may not reflect our internal view.

SFDR Classification

Article 9: Investments that target economic activities that are environmentally and/or socially sustainable, provided that the

companies in which the investments are made follow good governance practices. Article 8: Investments that promote environmental and/or social characteristics and may partly target sustainable investments, provided that the companies in which the investments are made follow good governance practices. Article 6: Investments that integrate ESG factors in their decision process in order to enhance their risk-return profile. Portfolios may invest in securities with high sustainability risks.

Important information

For the purposes of this marketing material, the Fund means the sub-fund of the fund referred to at the top of page 1 and the share designates either the unit or the share, depending on the legal form of the fund. The promoted fund concerns the acquisition of units or shares in a fund, and not in a given underlying asset such as building or shares of a company, as these are only the underlying assets owned by the fund. This marketing material is issued by the Fund Management Company, a company authorized and regulated by the regulatory authority. It is neither directed to, nor intended for distribution or use by, any person or entity who is a citizen or resident of or located in any locality, state, country or jurisdiction where such distribution, publication, availability or use would be contrary to law or regulation. The information and data presented in this document are not to be considered as an offer or solicitation to buy, sell or subscribe to any securities or financial instruments or services. It cannot be used as a basis for subscription and does not form part of a contract. The latest version of the fund's prospectus, Pre-Contractual Disclosures (PCD) when applicable, Key Investor Information Document (KIID), annual and semi-annual reports must be read before investing. They are available free of charge in English on www.assetmanagement.pictet or in paper copy at the management company, or at the office of the Fund local agent, distributor or centralizing agent if any. The KIID is also available in the local language of each country where the compartment is registered. The prospectus, the PCT and the annual and semi-annual reports may also be available in other languages, please refer to the website for other available languages. Only the latest version of these documents may be relied upon as the basis for investment decisions. The summary of investors rights (in English and in the different languages of our website) is available here (<https://am.pictet.com/ch/en/legal-documents-and-notes/summary-of-investor-rights>) and at www.assetmanagement.pictet under the heading Resources, at the bottom of the page. The list of countries where the Fund is registered can be obtained at all times from the management company, which may decide to terminate the arrangements made for the marketing of the Fund or compartments of the Fund in any given country. The management company has not taken any steps to ensure that the securities referred to in this document are suitable for any particular investor and this document is not to be relied upon in substitution for the exercise of independent judgment. Tax treatment depends on the

individual circumstances of each investor and may be subject to change in the future. Before making any investment decision, investors are recommended to ascertain if this investment is suitable for them in light of their financial knowledge and experience, investment goals and financial situation, or to obtain specific advice from an industry professional. Top 10 holdings do not represent the full portfolio. There is no guarantee that these securities will be held in the future and you should not assume that investment in the securities listed was, or will be profitable. Any reference to a ranking, a rating or an award provides no guarantee for future performance results and is not constant over time. For hedged share classes, only the compartment's consolidation currency is hedged into the share class currency. Foreign exchange exposure, resulting from assets in the portfolio which are not denominated in the consolidation currency, can remain. NAVs relating to dates on which shares are not issued or redeemed (non-trading NAVs) in your country may be published here. They can only be used for statistical performance measurements and calculations or commission calculations and cannot under any circumstances be used as a basis for subscription or redemption orders. Performance is shown based on the share class NAV per share (in the share class currency) with dividends reinvested (for distributing share classes), including actual ongoing charges, and excluding subscription/redemption fees and taxes borne by the investor. Inflation was not taken into account. As a subscription fee calculation example, if an investor invests EUR 1000 in a fund with a subscription fee of 5%, he will pay to his financial intermediary EUR 47.62 on his investment amount, resulting with a subscribed amount of EUR 952.38 in fund shares. In addition, potential account keeping costs (by your custodian) may reduce the performance. Indices do not include fees or operating expenses and you cannot invest in them. The decision to invest in the promoted fund should take into account all the characteristics or objectives of the promoted fund as described in its prospectus, or in the information which is to be disclosed to investors. Pictet Asset Management retains full discretion over the implementation of exclusion criteria and reserves the right to deviate from third-party information on a case-by-case basis. For more information, please refer to the Pictet Asset Management Responsible Investment Policy. For passive strategies exclusions are implemented to the extent portfolio structure, weight deviations, volatility and performance are not materially affected. The Market Data Specific Terms and Conditions shall apply to any individual or legal entity that receives from Pictet Asset Management market data such as, but not limited to, prices, ratings, indexes, regulatory data, research data and other information regarding financial instruments or other investments. They are available here <https://am.pictet.com/ch/en/legal-documents-and-notes/market-data-specific-terms-and-conditions>.

For Singapore: the investment which is the subject of this material is not authorised or recognised by the Monetary Authority of Singapore and is not allowed to be offered to the retail public. This material is not a prospectus as defined in the Securities and Futures Act. Accordingly statutory liability under that Act in relation to the content of prospectuses would not

apply. You should consider carefully whether the investment is suitable for you. The sale of shares of the Fund may be restricted in certain jurisdictions. In particular shares may not be offered or sold, directly or indirectly in the United States or to U.S. Persons, as is more fully described in the Fund's Prospectus. Further details may be obtained from the Fund's distributor. No part of this material may be copied or redistributed without Pictet Asset Management prior written consent.

The money market fund (MMF) is not a guaranteed investment vehicle. An investment in MMF is different from an investment in deposits, there is in particular a risk that the principal invested in a MMF is capable of fluctuation. The Fund does not rely on external support for guaranteeing the liquidity of the MMF or stabilising the NAV per unit or share and the risk of loss of the principal is to be borne by the investor. Money Market fund yields provide an estimated yield based on the previous day's underlying valuations and cannot guarantee future performance. Money Market funds yields are annualized based on a 365 day year (compared to some money market securities that use a 360 day convention. For MMFs that are not rated, the Fund may choose to solicit or finance an external credit rating. In such cases, the Prospectus and any relevant marketing material will be updated at the next available opportunity. For rated MMFs, the rating of the Fund was solicited or financed by the MMF or its manager. To access the Fund Rating, please refer to the General Information section. **The MMF uses the derogation to invest more than 5% of its assets in money market instruments issued by the same body and is authorised to invest up to 100% of its assets, in accordance with the principle of risk spreading, in Money Market Instruments issued or guaranteed separately or jointly by the EU, the national, regional and local administrations of the Member States of the EU or their central banks, the European Central Bank, the European Investment Bank, the European Investment Fund, the European Stability Mechanism, the European Financial Stability Facility, a central authority or central bank of a third country, the International Monetary Fund, the International Bank for Reconstruction and Development, the Council of Europe Development Bank, the European Bank for Reconstruction and Development, the Bank for International Settlements, or any other relevant international financial institution or organisation to which one or more Member States of the EU belong.** The index data referenced herein is the property of the Data Vendor.
